Letter of support: The Panelka project

To whom it may concern

This letter is to confirm our communication and promotion support for “The Panelka” project created by Kyiv artist Dasha Podoltseva of Seria_Project in collaboration with Explore The Arch theatre company. We will also work closely with EUNIC London in connection with applying for the EUNIC Global Culture of Solidarity EUNIC Ukraine Fund.

The full-scale invasion of Ukraine by the Russian Federation and the war in the heart of Europe has brought back unnecessary pain and suffering to our neighbouring nation. Russia’s aggression is an attack on the very essence of Ukrainian culture and has inflicted immense damage upon its cultural heritage, causing Ukrainian artists to face an uncertain future.

Ukraine has astounded the world with its defiance, resistance, and unity. Ukrainian artists and professionals have been finding ways to continue creating work despite the war ravaging their country. From the very beginning, Polish Cultural Institute has stood with Ukraine in these difficult times, and with this project, we seek to take supportive action in the matter again. The EUNIC Global Culture of Solidarity EUNIC Ukraine Fund will allow the Ukrainian Institute to develop the Panelka project further and create a film and an installation.

Marta de Zuniga

Director of the Polish Cultural Institute in London
